

17 april 1999

Published on Fidel soldado de las ideas (<http://www.fidelcastro.cu>)

"What does "Summit of the Americas" mean to us? What is that? You should know a bit more about that than I do because, for some reason, perhaps because you are much better than all of us and holier than all of us and you have not come up from the very depths of hell, you know what the Summit of the Americas is and some of those things. We have practically forgotten all that".
